

Abraham Garabedian

Front End Developer – Los Angeles, CA

(530) 574-5204 | abrahamgarabedian@gmail.com | aggarabedian.com | LinkedIn | GitHub

SUMMARY

Front End Developer with 2+ years of professional experience building performant, responsive, and accessible web applications. Adept at transforming complex business requirements into elegant, intuitive interfaces using React, Next.js, and TypeScript. Experienced in design systems, SSR, and component-driven development with tools like MUI and styled-components. Former chef with a deep appreciation for precision, collaboration, and process improvement — bringing creativity, adaptability, and strong problem-solving skills to every engineering challenge.

CORE SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, Python

Frameworks & Libraries: React, Next.js, Node.js, Express, Django, MUI, Styled-Components, Bootstrap, jQuery

Testing & Tools: Jest, React Testing Library, Storybook, Vercel, GitHub, Git

Databases: PostgreSQL, MongoDB

Other Expertise: RESTful APIs, JSON, Agile/Scrum, Responsive Design, Accessibility (a11y), CI/CD

EXPERIENCE

Front End Engineer | Entera – Remote (New York, NY)

September 2022 – November 2024

- Promoted from Junior Engineer to Engineer within one year based on strong performance and impact.
- Collaborated with cross-functional teams (Design, Product, Backend) to deliver scalable, user-friendly features in a real estate SaaS platform.
- Played a key role in migrating a legacy React app to Next.js for improved SEO, SSR performance, and developer efficiency.
- Built modular, reusable UI components using TypeScript, MUI, and styled-components—reducing redundant code and improving maintainability.
- Integrated unit and integration testing using Jest, React Testing Library, and Storybook to ensure UI consistency and reliability.
- Contributed to code reviews, improved CI/CD workflows, and mentored newer developers on front-end best practices.

Head Chef | Beauty's Bagel Shop – Oakland, CA

January 2016 – March 2020

- Led kitchen operations for a high-volume restaurant generating over \$2M in annual revenue.
- Managed a team of 20+ employees, overseeing hiring, training, and workflow optimization.
- Implemented new standards for inventory management and recipe documentation using Excel—improving efficiency and consistency across locations.
- Helped open a second restaurant by creating scalable operational systems and training new staff.
- Cultivated a strong team culture emphasizing precision, communication, and collaboration.

EDUCATION

Software Engineering Immersive | General Assembly – Remote

June 2021 – September 2021

Intensive 450+ hour program covering full-stack JavaScript development, data modeling, and agile collaboration.
Built full-stack applications using React, Node.js, Express, and MongoDB.

Bachelor of Arts in Psychology | University of California, Davis
